INDEX

Accumulation, process of, 225-226
Administrative titles, 331-333
Advisors, functions of academic, 350
Alberta Plan, 118
Alternative graduate programs, 318-321
American Council for Elementary School Industrial Arts (ACESIA), 400-402
American Council of Industrial Arts State Association Officers (ACIASAO), 398-400
American Council of Industrial Arts Supervisors (ACIAS), 327, 396-398
American Council on Industrial Teacher Education (ACIATE), 300-301, 364, 395-396
  history of yearbook, 395
  origin of, 364
  purposes of yearbook, 456-457
  summary of 1979 *Yearbook,* 456-468
American Industrial Arts Association (AIAA), 361-391, 466-467
  archives of, 410
  committee activity of, 379-380
  conference activities of, 383-385
  future of, 389-391
  futuristics presentations of, 235
  group affiliations, 393-406
  growth of, 363-370
  legislative responsibilities of, 385-387
  objectives and functions of, 376-379
  organizational structure of, 370-376
  origin of, 362-363
AIAA survey (1973), 339-340
American Industrial Arts College Student Association (AIACSA), 404-406
American Industrial Arts Student Association (AIASA), 402-404
American Industry Project, 116-117
American Vocational Association (AVA), Industrial Arts Division, 388-389, 406-408
American Vocational Journal, 436, 450-451
Antiquity, and education, 250
Arts and crafts movement, 28
Automation, role in production, 209

Baccalaureate degree, in industrial arts, 295-296
Bacon, Francis, 21, 220, 251
Bakamis, W.A., 330
Baker and Miller, 350

Barlow, Melvin, 32, 355
Barnes, R., 277, 278
Basedow, Johannn, 23-25
Bass, B.M., 352, 359
Bateson and Stern, 117
Bawden, William, 414, 415, 418, 419
Bell, Daniel, 226, 239
Bennett, Charles, 24, 25, 49, 90, 265, 413, 418
Bloom, B.S., 275, 276
Bohn, Ralph, 444
Bonser, Frederick, 31, 50, 52, 65, 432
Brown (1973), 178, 179
Brueckner, H.W., 328
Buffer, J.J., 319
Bureaucratic structure, 353-354
Burton, R.L., 328

Career Development for Children Project, 125
Career education, 39, 53, 82, 180-182, 462
  in elementary schools, 54-56
  and vocational education, 181
Center for the Study of Social Policy, 229
Centre for Educational Research and Innovation, 225
Change, coping with, 228-229, 233
Charters, W.W., 60
Cluster concept, 461
  defined, 177-178
  inconsistencies in, 177
Cochran, L.H., (1970), 172, 182
College Scene, 405
Comenius, Johann, 21, 251
Communications systems, 190-191
Community resources, in teaching, 261-262
Computer-assisted instruction, 273, 280-281
Cornish, E., (1977), 219
Correlated and Pre-Technical Programs, 124
Curriculum –
  defined, 170
  content classifications of, 247
  discipline-centered, 171
  evolution of, 212-213
  handwork as part of, 24
  history of shopwork in, 88-89, 90
  influences laboratory facilities, 105
  needs-based, 176
  objectives-based, 176
  obstacles to developing new, 154-155
  perspective view of, 170
  production-centered, 172
  retrospective view of, 170
  student-centered, 152, 171
  technology based, 175-176
  time lags in, 214
Curriculum change, 460
Curriculum development –
  career-centered, 123-125
  defined, 170
  emphases of, 173-175, 461
  evolutionary approaches to, 125-126
  nonfunded, 142-143
Curriculum developments –
  in 1900's, 194-198
  in 1950's, 197
  in 1960's, 114-128
  in 1970's, 169-184
Curriculum materials, development of IACP, 159-160
Curriculum plans, 75
Curriculum practices –
  branches of, 179
  classifications of, 172-173
  defined, 170
  four content sources of, 172
Curriculum reform, 37

Demonstration method of teaching, 259
Department head, function of, 336
DeVore, Paul, 120, 121, 175
Dewey, John, 29-31, 44, 255, 265
Dialectic method of teaching, 250
Discussion method of teaching, 258-259
Doctoral degree, in industrial arts, 292, 294, 298-300, 206-308, 309-312
Douglas Commission, 28-29
Drake, W.E., (1960), 292
Drawing and Manual Training Journal, 428-429
Drill and practice teaching method, 267
Dudley, A.J., 172, 338
Dumping ground syndrome, 351
Durational expectancies, 229

Education –
in antiquity, 250
in Middle Ages, 250
general *vs* industrial arts 59-70
revolutions in, 234
Education Development Center, 229-230
Educational objectives, importance of, 246-247
Elementary schools, evolution of industrial arts in, 43-58
Enterprise System, 119
Evaluation, and curriculum status, 174, 175

Facilities, planning industrial arts, 105
Feirer, John, 109, 179, 355
Field trips, value of, 261-262
Fleishman, E.A., 357
Florida Plan, 81
Focus, in curriculum planning, 174
Foreign language, in graduate study, 307
Frandsen, A.N., 248
Froebel, Friedrich, 24-25, 27, 47-48, 253
Fryklund, Verne, 417, 418
Funding, of IACP, 162-164
Future, of industrial arts, 456-468
Future shock, 218, 222, 228
Future-focused role image, 231, 232
Futures Bulletin, 236
Futurism, and industrial arts education, 217-242
Futuristics –
defined, 219
publications on, 236
Futurology, defined, 219

Galaxy Plan, 123-124
Gallup, George, (1964), 229
Games, as teaching method, 273-275, 280
General education –
defined, 60-61
vs. industrial arts, 458
vs. industrial education, 430, 432, 434-435
vs. liberal education, 62-63
vs. specialized education, 66-67
General shop, history of, 92-94
Georgia Plan, 125
Gibb, D.A., 349
Good Survey, 338-339
Goodlad, J.I., 171
Graduate education, purposes of, 290, 464
Graduate programs, alternative, 318-321

Graduate study –
in industrial arts, 290-322
technical courses in, 313-315
Groneman, Chris, 293-294
Group method of teaching, 254
Group productivity, 357

Harmon, W.H., (1977), 226, 228
Hegel, George W.F., 46
Hemphill, John, 356, 358
Herbart, Johann, 47, 252
Herr, E.L., 181
Hollander, E.P., 350
Hostetler, Ivan, 38
Householder, Daniel, (1972), 115, 172-173, 176, 178, 182
Hoyt, K.B., 56
Humanism, in education, 20

Individualism, in education, 250
Individualized instruction, 267-269
Industrial arts –
and agrarian society, 354
basic curriculum practices, 172
content emphases, 178
curriculum content sources, 172
defined, 77, 173, 432
development of, 457-459
during Depression, 196, 362, 421
during the 1940's, 196
during the 1960's, 197-198
in elementary schools, 182, 458
enrollment patterns in, 179
funding of, 75-77, 78, 79, 82, 115, 183
future of, 237-238, 456-468
vs. general education, 59-70, 458
graduate education in, 290-322
vs. industrial education, 334
influence of technology on, 188-215
in junior high schools, 435
laboratory facilities, 86-109
leadership in, 348-359
origins of, 29-40
philosophy of early, 195
planning graduate programs in, 301-302
role of professional journals, 425-453
role of supervisors in, 326-345
and study of the future, 217-242
technology-based, 461
vs. vocational education, 73-84, 422
Industrial Arts Curriculum Project (IACP), 116, 149
developmental concerns of, 153-154
developmental problems of, 154-156
Industrial Arts Magazine, 431-433
Industrial Arts in Modern Education, 423
Industrial arts organizations, 392-411
Industrial arts supervisors –
duties of, 337-342
present role of, 341-342
types of, 335-337
Industrial arts supervisory network, 340-341
Industrial Arts Teacher, 363, 364, 438-443
Industrial arts teaching methods, 245-281, 463
Industrial Education, 452
Industrial education –
defined, 295
as general education, 430
vs. general education 430, 432, 434-435
vs. industrial arts, 334

Industriology Project, 126
Industry, defined, 152
Inlow, G.M., 268, 271, 272
Instructional materials, 260-261
Interdisciplinary programs, 172, 312
Introduction to Vocations program, 124

Job analysis, 255
Journal of Epsilon Pi Tau, 444-445, 452
Journal of Industrial Arts Education, 365, 366
Journal of Industrial Education, 426-428
Journal of Industrial Teacher Education 409, 443-444, 452
Journals –
  functions of, 425
  historical development of, 426-446
  role of in industrial arts, 425-453
  survey of, 447-449

Kabakjian, Edward, 366, 367, 443
Kant, Immanual, 46
Karnes, M.R., 418
Kaufman, A.H., 299
Keniston, K., (1968), 232
Keppel, F., 234
Kilpatrick, William, 263-265
"Kindergarten," origins of, 47, 48
Knowledge, four domains of, 151-152
Knowledge explosion, defined, 278
Kranzberg, M., 255
Kruppa, J.R., 261

Laboratories –
  cluster organized, 102
  development of, 459
  function of, 246
  for industrial arts, 86-109
Laboratory facilities, future, 278
Landau, E., (1966), 233-234
Lauda, Donald, 228-229
Leader, defined, 350
Leader Behavior Description Questionnaire, 356-357
Leaders, traits of, 349, 466
Leadership –
  in industrial arts, 348-359
  organizational factors of, 353-356
Leadership behaviors, 356-358
Learning, conditions for, 248
Lecture-demonstration as teaching method, 259
Lecture method of teaching, 257-258
Lemons, C.D., 367
Lesse, Stanley, 225
Locke, John, 21, 251-252
London, Hoyt, 417-418

Maley, D., 68, 177, 245-246, 247, 266
Man/Society/Technology, 366, 367, 450
Manual arts, 28, 43, 195, 413, 415, 419
  vs. vocational education, 415-416
Manual training, 253, 292, 293, 428, 429
Manual Training Magazine, 428
Manual training movement, 26
Manufacturing Educators Consortium, 445
Manufacturing Forum, 445-446
Marland, Sidney, 39, 180

Maryland Plan –
outcomes of, 145-146
participation in, 141
philosophy of, 133-134, 140
Master's degree, in industrial arts, 291-292, 293-294, 296-297, 302-305
Mastery learning, 275-276
Mays, Arthur, 421
McGrath, E.J., 60
McKeachie, W.J., 273
McLaughlin, D.H., 180-181, 182
Mellontology, 219
Microcomputers, 210-211
Middle Ages, and education, 250
Miller, R., (1974), 43-44, 53, 54
Mississippi Valley Conference, 413-424, 466
changes in programs, 420-421
membership in, 416-417
Mohan, H. David, 358
Mones, Leon, 440-441
Multi-disciplinary activities, 240

National Association of Industrial and Technical Teacher Educators (NAITTE), 408-410
National Defense Education Act (NDEA), 329, 365, 366
National Education Association, 387, 388
Naturalism, in education, 252
Newkirk, Louis, 439-440
News Bulletin, 436

Objectives-based curriculum, 176
Olson, Delmar, 36-37, 120-121
Open-ended project, 266
Open system, 354-355
Orchestrated Systems Approach, 118-119
Organizational patterns, of supervisory positions, 328-330

Panel on Alternative Approaches to Graduate Education, 322
Parsons, T., 354
Partnership Project, 123
Pazik, I., 275
Pelley, 197
Perrow, C., 353-354
Personal rapid transit, 211
Pestalozzi, Johann, 22-23, 27, 46-47,252
Philanthropinum, 23
Pierce, Chester, 232
Position power, 352
Power, and industrial development, 191-192
Power and transportation systems, 191-193
Practice-oriented graduate programs, 301,303
Praxiology, defined, 151-152
Problem-solving teaching method, defined, 265
Production-centered curriculum, 172
Production systems, 193-194
Proffit, Maris, 437-438
Program evaluation, 182-183
Programmed instruction, 270-271, 279-280
Projects, as instructional method, 179, 263-265
Projected teaching materials, 260-261
Prosser, 421
Publishers, and curriculum development, 127

Questioning, as method of teaching, 259

Realism, in education, 20-25, 251-252
Reformation, role in education, 21, 251
Renaissance, and education, 20, 250
Research, vs. practice-oriented graduate programs, 301-302, 308
Research activity, doctoral, 316-318
Research and experimentation method, 266
Research productivity, 315-318
Rice, J. M., 254
Richards, Charles, 64
Richmond Plan, 124
Role development, of industrial arts supervisors, 331
Role playing, value of, 263
Roles, adolescent, 231-234
Rousseau, Jean J., 22, 45-46, 252
Russell, James E., 30, 62
Russian system, 25, 26, 253, 254

Salzmann, Christian, 23-24
Schmitt, M. L., 179, 197
School Scene, 404
School Shop, 437-438, 451-452
Schools, manual training, 292-293
Schul, B. D., 349
Secondary education, defined, 78
Self, concept of, 231
Sense realism, 20-25, 251-253
Shane, H. G., 234
Shostrom, E. L., (1967), 230
Silvius, G. Harold, 419
Simulation –
  history of, 274
  as teaching method, 273-275, 280
Singer, Benjamin, 231
Skinner, B. F., 270, 271
Sloyd system, 27-28, 253, 254
Small group instruction, 262-263
Smalley, Lee, 237
Smith, H. J., 327-328
Smith-Hughes Act, 29, 74, 255
Snedden, David, 414, 434-435, 436
Social philosophy, and industrial arts education, 50
Society –
  dilemmas of advanced, 226, 228
  primitive vs. contemporary, 225
Socratic Method, 250
Specialist of Education degree, in industrial arts, 297-298, 304
Spurr, S. H., (1970), 306, 309, 311, 312, 314
Sredl, H. J., 34-35
Starkweather, Kendall, 237
State departments, of education, and curriculum development, 126
Stimulus-Response Bond theory, 254-255
Stogdill, R. M., 352, 356, 357
Stolurow, L. M., 271
Stovall, T. F., 258
Student-centered education, 43, 44, 52
Subject matter, types of, 247
Supervised study, defined, 269
Supervision, history of educational, 327
Supervisors –
  present role of, 326-345, 465
  qualities of good, 328
Supervisory positions, organizational patterns of, 328-330
Swanson, R., 172
System theory, 275

Teacher roles, 144, 176, 279, 351-352, 462-463
Teachers –
characteristics of successful, 248-249
degree requirements for, 295-300, 314, 319, 320-321
Teaching aids, use of, 260-261
Teaching environment, importance of, 249
Teaching materials, projected, 260-261
Teaching methods –
conventional, 256-576
and educational objectives, 246-247
future, 276-281
history of, 249-256
in industrial arts, 245-281, 463
Technical courses, in graduate study, 305, 313-315
Technological systems, 190-198, 462
Technology –
as curriculum base, 175-176, 197, 461
and development of laboratory facilities, 96, 98
discrepancies with curricula, 199-212
and general education, 63
and industrial arts curricula, 212-213
influence on industrial arts, 188-215
study of, 120-121
and teaching methods, 256
Technology for Children Project, 122-123
Technology-based Industrial Arts, 175-176
Television instruction, 271-272, 279
Textbook publishers, and curriculum development, 127
Textbook teaching, 260
Toffler, Alvin, 217, 222-223, 228, 229
Towers, Lux, and *Ray* (1966), 176, 178

Unit teaching method, defined, 268-269

Values, adolescent, 232
Videotape recording, in industrial arts teaching, 272-273
Virginia State Department of Education Conference, 338
Vocational education –
inception of, 28
vs. industrial arts, 73-84
Vocational Education, 429-431
Vocational Education Act, 38-39, 74, 80, 83, 149, 459
Vocational Education Magazine, 433-436
Vocational linkage, 179
